Type: ROUTINE INSPECTION
Date: 17-SEP-2019

2.50(a)(1)

TIME AND METHOD OF IDENTIFICATION.

Official identification has been acquired and assigned to each adult dog, however the identification tags were in storage at the facility and not affixed to each dog. Proper identification is required and can be important for animal health monitoring for each dog. Ensure that each adult dog is identified with a tag affixed to the animal's neck by means of a collar made of material generally considered acceptable to pet owners as a means of identifying their pet dogs.

Correct by October 2, 2019.

This inspection and exit interview were conducted with a facility representative.
