Certificate: **21-C-0497**
Site: 001
Jungle Experience Zoo, Inc

Type: ROUTINE INSPECTION
Date: 19-MAR-2025

2.75(b)(1) Repeat

Records: Dealers and exhibitors.

Records were not available for a newly acquired amazon parrot named "Figaro." The licensee recently had acquired the bird, however the information which is required per this section of the AWA had not been documented. Records must be maintained for all animals in the facility and must be updated with the required information, including date of acquisition and species of animal. The licensee corrected this issue at the time of the inspection.

2.134(b)

Contingency planning.

A Contingency Plan had been documented for the facility, however annual reviews are not being conducted as required. The facility must review the plan on an annual basis, and the date of review and plan revisions, if any, must be documented. The licensee must correct this issue.

*****Correct by April 19, 2025

3.128

Space requirements.

Two Capybaras are currently housed in enclosures in the indoor winter building. The enclosures do not provide a pool or a water feature, other than the animals drinking water. Capybaras are a semi aquatic species, and the space of their enclosure should allow for submersion and swimming behaviors in addition to defecation. This needs to be addressed for the health of the animals. The licensee corrected this issue at the time of inspection by offering water pools to both capybara enclosures.

*****Corrected on March 19, 2025

This inspection and exit interview were conducted with the licensee.
