Miscellaneous.

The facility had not developed a complete written plan to provide humane care for handling animals in the event of an emergency or disaster. The lack of an adequate contingency plan could increase the risk of not being able to safeguard animals during emergencies or disasters. The facility must develop, document and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing and care of their animals in the event of an emergency or disaster that could reasonably be anticipated for the covered species. The plan shall address specific tasks required to be carried out in response to the identified emergencies, personnel responsible for the actions to be taken, chain of command, etc., as required in Section 2.38 (l) of the animal welfare regulations.

Corrected during inspection.

This inspection and exit interview were conducted with the facility representative.
