#### Requirements and application.

This was a search inspection.

The facility has continued to conduct regulated activity without a license from USDA APHIS Animal Care. The inspector arrived at approximately 3:20pm on 18-July-2024 at the Otter Adventures exhibition at the Cherokee County Fair in Cherokee, Iowa. Approximately 40 members of the public were seen observing the five oriental small-clawed otters. A sign was posted for shows at 3pm and 7pm daily and the fair schedule shows two shows daily from 18-July to 21-July-2024. The inspector talked to a worker of the exhibit that stated they were not aware of licensing information and a call would need to be made to the licensees. The inspector left the fairgrounds at 3:40pm. A phone call between the inspector and licensee was conducted on 19-July-2024 where the licensee stated they did not have a USDA license and they would continue to conduct regulated activity without a license.

Conducting regulated activity without a USDA license does not comply with the Animal Welfare Act or ensure that APHIS officials can assess the care of the animals. The facility must obtain a license from the USDA to continue conducting regulated activity under the Animal Welfare Act. Continuing to conduct regulated activity without a license is a serious violation of the Animal Welfare Act.

This inspection and exit interview were conducted with licensee.
