3.28(a)(1)

Primary enclosures.

Room # 1 has bare wood on the support frames and walls of the large enclosure. Primary enclosures for guinea pigs must be constructed of smooth materials that are impervious to moisture and liquids. Bare wood on guinea pig enclosures must be sealed, replaced, or covered with a material that is impervious to moisture so that surfaces can be readily cleaned and sanitized. Correct by May 20, 2024.

This inspection and exit interview were conducted with the licensee.
