

## Inspection Report

KYLE WILSON  
1416 CURRIER LANE  
KNOXVILLE, TN 37919

Customer ID: **9679**  
Certificate: **63-C-0149**  
Site: 001  
ROCKY HILL REINDEER

Type: ROUTINE INSPECTION  
Date: 14-JUN-2023

### 2.126(a)(2) Repeat

#### Access and inspection of records and property; submission of itineraries.

\*\*\*USDA Officials were unable to review records during inspection. Licensee stated the records are on his computer and the computer is still not working. There were no written records of animals on hand, Contingency Plan, Program of Veterinary Care or animal dispositions available for review. Records shall be developed, maintained on hand and made available for review by USDA Officials during inspection.

### 3.130

#### Watering.

\*\*\*Upon entering the reindeer enclosure, USDA observed the first water trough in the enclosure was empty. The water trough in the back enclosure contains discolored water with unknown substance floating in it, as well as an accumulation of sediment on the sides and bottom of the trough. The licensee attempted to fill the trough and overflow it, creating a slurry. The licensee attempted to drain the trough, but the drain plug became clogged with the sediment. Consumption of contaminated water may cause illness. All water receptacles shall be kept clean and sanitary to protect the health and wellbeing of the reindeer. Correct by June 22, 2023.

### 3.131(a)

#### Sanitation.

\*\*\*The ground in the right side of the main reindeer shed that the reindeer currently have access to is wet and slick with accumulated excreta and mud. The surface is not even and has several potholes or pits that have allowed the urine and excreta to accumulate, preventing proper drainage and allowing the surface to become slippery. The shelter shall be cleaned and the surface prepared in a manner that will allow appropriate drainage of waste material to protect the reindeer from exposure to possible contaminants as well as prevent loss of footing which may lead to injury. Correct by June 28, 2023.

This inspection and exit interview were conducted with the licensee.
