

Inspection Report

Norristown Zoological Society
1661 Harding Blvd
Norristown, PA 19401

Customer ID: **2228**

Certificate: **23-C-0006**

Site: 001

NORRISTOWN ZOOLOGICAL PARK

Type: ROUTINE INSPECTION

Date: 14-JUL-2015

3.131(c) REPEAT

SANITATION.

Section 3.131(c) Housekeeping: There are still equipment and supplies such as trees, containers, wheel barrows, equipment, machinery, dumpsters and construction material being stored against the inside of the 8 foot perimeter fence at the front area by the parking lot. This material provides good cover and hiding places for vermin/pests. Also a function of the perimeter fence is to be a secondary containment system for the animals in the facility. The stored items against the fence act as stairs or steps so an escaped animal could easily reach the top of the fence to jump to the other side. The items stored along the perimeter fence must be removed to prevent cover for vermin/pests and so the perimeter fence may serve as a secondary containment system for the animals. This is a repeat non-compliant item that remains uncorrected.

An exit briefing was conducted with the general curator; Mary Geib, VMO; and Robert Markmann, ACI.

Additional Inspectors

Markmann Robert, Animal Care Inspector

Prepared By: MARY GEIB, D V M USDA, APHIS, Animal Care
