3318 Mennonite School Road  
MONTEZUMA, GA 31063

Customer ID: **508170**  
Certificate: **67-A-0002**  
Site: 001  
ADAM YODER

Type: ROUTINE INSPECTION  
Date: 06-NOV-2023

---

### 2.1(b)(2)(i) Repeat

#### Requirements and application

The maximum number of animals authorized for the facility's current license is 2800, but USDA inspectors counted at least 4384 rabbits during inspection. The USDA license authorizes a specific number of animals to ensure the facility is capable of providing care for that number of animals. A licensee must obtain a new license before any change resulting in more than the authorized number of animals on hand at any single point in time during the period of licensure. The licensee must maintain no more than the maximum number of animals that his USDA license allows.

### 2.75(b)(1)

#### Records: Dealers and exhibitors.

The facility did not document an exchange of animals resulting in the acquisition of about 5 rabbits and the disposition of a few. Without records which fully disclose the animal's acquisition/disposition information, legal and medical information traceback is not possible. Develop and maintain records disclosing the required acquisition/disposition information including the date, name, address, and USDA number if applicable of the person from whom the animal was acquired from or transferred to. The records shall include any deaths and any offspring born of any animal while in his or her possession or under his or her control. To be corrected by November 22, 2023.

This inspection and exit interview were conducted with a facility representative.

Additional Inspectors:

Lisa Ekman, VETERINARY MEDICAL OFFICER
