CHATTANOOGA, TN 37419

Customer ID: **3047**

Certificate: **63-C-0028**

Site: 001

THE CHATTANOOGA NATURE
CENTER

Type: ROUTINE INSPECTION

Date: 27-MAR-2024

3.152(b)

Facilities, outdoor

The enclosure housing the male sandhill crane does not currently have a shelter structure that provides shelter from wind and precipitation. Construction of a shelter structure has been started and was actively observed during the inspection. Projected time to completion is by the end of the week. The enclosure does provide shade via topography, an adjacent structure and trees. Adequate shelter is necessary to protect birds from adverse weather conditions and prevent their discomfort. Outdoor housing facilities must provide adequate shelter appropriate to the species and physical condition of the birds for the local climatic conditions. Correct by 4/3/24.

This inspection and exit interview were conducted with the facility representative.
