

## Inspection Report

Bartons West End Farms Inc  
576 Townsbury Road  
Great Meadows, NJ 07838

Customer ID: 701

Certificate: 22-B-0002

Site: 002

BARTONS WEST END FARMS INC

Type: ROUTINE INSPECTION

Date: 08-MAY-2014

3.80(b)(2)(4)

REPEAT

### PRIMARY ENCLOSURES.

In building 7A there were seven enclosures each housing two rhesus weighing at least 1.76 kg. Four of these 14 monkeys were greater than 3 kg. These enclosures measured 26 x24 inches, and provided approximately 4.3 square feet of floor space. Each of the two non-human primates weighing between 1 -3 kg require a minimum of 3.0 square feet of floor space, and those greater than 3 kg require at least 4.3 square feet each. These enclosures do not provide enough floor space for the animals housed within.

Additionally, In building 7A there were two enclosures each housing two rhesus. These enclosures measured 25 x 27

inches, and provided approximately 4.7 square feet of floor space. Three of the monkeys were greater than 3 kg in weight. Each of these non-human primates require a minimum of 4.3 square feet of floor space for these animals weight ranges. These enclosures do not provide enough floor space for the animals housed within.

Animals which are housed in enclosures that do not provide the minimum amount of floor space may experience additional stress, resulting in potential fighting and/ or other behaviors which may deem the pair incompatible. The facility must provide the appropriate amount of floor space required for animals to ensure there is enough space for normal postural adjustments and for the animals to exhibit typical species behavior to facilitate social housing situations.

The facility has been previously cited under 3.80 (b) (2) (iv) on November 12, 2013, August 12, 2013, May 21, 2013, and April 11, 2013.

An exit briefing was conducted with the facility representatives.

### Additional Inspectors

Geib Mary, Veterinary Medical Officer

Prepared By: KERI LUPO, D V M USDA, APHIS, Animal Care
