Certificate: **12-C-0052**
Site: 002
MIAMI SEAQUARIUM

Type: ROUTINE INSPECTION
Date: 01-FEB-2016

3.101(a)(1)

FACILITIES, GENERAL.

The concrete (pebble rock) pool edge at one of the six Dolphin Harbor pools was observed damaged and with sharp point/edges. These sharp points/edges are an injury hazard to any dolphin that is housed at that pool. Indoor and outdoor facilities for marine mammals must be structurally sound and must be maintained in good repair to protect the animals from injury. To prevent injury to regulated animals, the establishment should repair and/or replace the damaged pool edge as soon as possible.

Correct by: March 1, 2016

The area Supervisory Animal Care Specialist, Dr. Gregory Gaj, was present during the inspection.

Exit interview conducted with facility representative.

Additional Inspectors

Gaj Gregory, Supervisory Animal Care Specialist
