WHITE OAK CONSERVATION
HOLDINGS LLC

Type: ROUTINE INSPECTION

Date: 11-JUL-2024

3.125(a) Critical

Facilities, general.

On May 29, 2024 a 2.5 year old female white rhinoceros was found dead after getting her head stuck between fence rails.

The rail spacing for this enclosure allowed this smaller animal to get her head between the rails and become entrapped leading to her death.

The facility must be constructed of such material and of such strength as appropriate for the animals involved. The enclosure must protect the animals from injury.

Facility corrected this enclosure by adding extra rails prior to inspection on July 11, 2024

The following elephants were inspected:

Alana, Angelica, April, Asha, Asia, Barak, Bonnie, Casie, Emma, Gunther, Icky, Irvin, Juliette, Kelly, Kumari, Luna, Mable, Masala, Myrtle, Osgood, Piper, PT, Sammy, Sara, Shirley, Tikka, Tonka, and Vance.

This inspection and exit interview were conducted with facility representatives.

Additional Inspectors:

Lindsay Livingston, VETERINARY MEDICAL OFFICER

Ronald Richardson, VETERINARY MEDICAL OFFICER

Prepared By: DAVID MERSEREAU

USDA, APHIS, Animal Care

Date:

12-JUL-2024

Title: VETERINARY MEDICAL
OFFICER
