

## Inspection Report

Alfred State College  
10 Upper Campus Dr  
Alfred, NY 14802

Customer ID: 18374

Certificate: 21-R-0228

Site: 001

ALFRED STATE COLLEGE

Type: ROUTINE INSPECTION

Date: 04-SEP-2014

### 3.1(a)

#### HOUSING FACILITIES, GENERAL.

\*\*\* The seven outdoor runs do not have protective fencing on top. This fencing is necessary for containment purposes, because some of the dogs can climb the existing chainlink sides, thus escaping the enclosures.

Correct by 3/1/15

\*\*\* In several areas, including the gates, the fencing enclosing the exercise area does not reach ground level. The gaps are large enough to allow the entrance of animals from outside, and, depending on the size of the dogs within, escape.

Correct by 3/1/15

\*\*\* Some of the overhead matts used for sound reduction in the main kennel room have loosened and are in danger of falling. this could result in injury to the dogs below.

Correct by 9/18/14

### 3.4(b)(2)

#### OUTDOOR HOUSING FACILITIES.

\*\*\* There is no overhead protection from the sun, rain, and snow for dogs using the outdoor runs. Minimally this oversight could be uncomfortable for the dogs, and if weather conditions were severe enough, the oversight could lead to health problems.

Correct by 3/1/15

An exit interview was conducted with the facility representative on 9/4/14.
