COLLEEN KINCAID

Type: ROUTINE INSPECTION
Date: 04-SEP-2019

3.6(a)(2)(i)

PRIMARY ENCLOSURES.

Primary encloses for dogs must be kept in good repair. At least two of the dog runs on the main kennel have chain link fencing that is loose with a few sharp pointed wires. These areas are in need of repair to help maintain a safe environment for dogs. The owner must repair or replace this area of the fencing used to contain dogs and put into practice a good maintenance program that daily monitors the primary encloses of this kennel. Owners spouse started repairing these areas during this inspection. Fully correct by 10OCT2019.

This inspection and exit interview were conducted with the owners.
