Customer ID: **334966**

Certificate: **34-C-0410**

Site: 001

HOWELL NATURE CENTER LLC

Type: ROUTINE INSPECTION

Date: 08-JUN-2023

3.127(d)

Facilities, outdoor.

The facility built a new primary enclosure for the coyote. The previous enclosure was covered by a perimeter fence variance. The facility requested a variance for the new primary enclosure and it was denied. There is no perimeter fence surrounding the primary enclosure for the coyote.

All non-dangerous wild and exotic enclosures must be surrounded by a 6' perimeter fence. The fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility.

A perimeter fence must be constructed around the new coyote enclosure .

To be corrected by December 8, 2023

This inspection and exit interview were conducted with a facility representative.
