Certificate: **93-C-0691**
Site: TRA
ROCKET & ASHLEY HOSKINS

Type: ROUTINE INSPECTION
Date: 16-SEP-2017

2.126(c) REPEAT

ACCESS AND INSPECTION OF RECORDS AND PROPERTY; SUBMISSION OF ITINERARIES.

No itinerary was submitted by the Exhibitor for this venue.

Itineraries are necessary to allow for the inspection of traveling exhibitors to confirm compliance with the Animal Welfare Act, notably regarding the animal care and welfare while traveling.

Submission of itineraries as detailed in this regulation must be submitted for any overnight travel of regulated species.

3.6(c)(1) REPEAT

PRIMARY ENCLOSURES.

A number of the portable kennels used to house the dogs within the travel trailer were soiled. The fronts of multiple cages were rusty. One cage was damaged near the top, with portions of the plastic missing.

Rust present on the doors prevents proper sanitation. Housing the dogs in enclosures in these conditions can cause spread of disease.

A system of cleaning and maintenance must be in place to keep the primary enclosures of dogs clean and in good repair.

3.10

WATERING.

The water bowls in the outdoor enclosures had scale in them. One of the bowls had a dark green film under the level of the water. The dogs within the portable kennels in the trailer did not have water present at the time of the inspection.

Provision of clean, potable water is essential to maintaining the health of the animals.

Prepared By: SCHNELL MICHAEL, D V M USDA, APHIS, Animal Care
