

## Inspection Report

---

RONALD RADIES  
E4438 LITTLE FALLS ROAD  
MARION, WI 54950

Customer ID: **2369**  
Certificate: **35-C-0305**  
Site: 001  
RONALD RADIES

Type: ROUTINE INSPECTION  
Date: 22-JUL-2025

---

### 2.40(a)(1)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The written program of veterinary care (PVC) was not available for inspection. A written PVC is required and helps assure that the animals housed at the facility have adequate veterinary care available. Ensure to work with the Attending Veterinarian to develop and maintain the written program of veterinary care.

\*\*\*Correct by August 25, 2025.

### 3.50

#### Facilities, general.

A piece of metal that covers a hollow log shelter for rabbits had rusted and rough edges. Rough edges could cause injury to animals. Ensure that surfaces that animals can touch are free of sharp edges to protect them from possible injury.

\*\*\*Correct by July 30, 2025.

### 3.154

#### Environment enhancement to promote psychological well-being.

A written environmental enhancement plan wasn't available for inspection. The birds have housing that provides environmental enrichment and social housing, however a written plan that is approved by the Attending Veterinarian must be in place to assure that the birds' environment is appropriate for each species. Ensure that a written program of environmental enhancement is maintained.

\*\*\*Correct by August 25, 2025.

This inspection and exit interview were conducted with the licensee.
