

Inspection Report

David Lynn
2050 Highway 78
Brighton, IA 52540

Customer ID: **506711**
Certificate: **42-C-0239**
Site: 001
DAVID LYNN

Type: ROUTINE INSPECTION
Date: 26-FEB-2020

3.125(a)

FACILITIES, GENERAL.

* The outdoor enclosure containment fencing in the southeast corner is starting to bow and bend. An estimated 35 sheep and goats are in contact with the affecting fencing located in outdoor housing. The ability to contain the animals securely is greatly affected and could lead to potential injury, if the enclosure fencing is not kept in good repair. Containment of animals at all times is necessary for protection from potential escape or injury which could have a negative impact on the well-being of the animals. Outdoor housing facilities shall be maintained in good repair to protect the animals from injury and to contain the animals. Correct by 3/4/20.

3.125(d)

FACILITIES, GENERAL.

* The west half of the inside floor area of one outdoor sheltered building is covered with fecal and other organic material. Two donkey's are in contact with the affected areas located in outdoor housing. Fecal and organic material can attract pests and rodents, become a disease hazard or area of contamination to the animals. Odors, insects, disease hazards, and pest infestation from fecal and organic material accumulations can have an adverse effect on the health and well-being of the animals at this facility. The licensee must have provisions in place for the removal and disposal of animals and food wastes, bedding, dead animals, trash and debris. Correct by 3/4/20.

* The facility inspection and exit briefing done on 2/26/20 were conducted with the licensee.
