Certificate: **48-B-0360**  
Site: 001  
AMY GORMAN

Type: ROUTINE INSPECTION  
Date: 28-SEP-2023

---

### 2.75(b)(1)

#### Records: Dealers and exhibitors.

\* Official USDA form (7019) animals on hand other than dogs or cats were incomplete. The following animals were missing from the 7019 form, one Camel, three Water Buffalo, two American Bison, one Watusi and two Coatimundi. When the records and animals currently at the facility do not match it makes the records incomplete. Complete and accurate records are needed to ensure each animal's identity can be known with certainty, track the movement of animals and to facilitate the inspection process. The licensee must maintain complete and accurate records of all animals at the facility. The licensee shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning animals other than dogs and cats, purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by that dealer. Correct by 10/28/23.

### 3.131(d)

#### Sanitation.

\* Cobwebs and dust were observed accumulating on top of the sheltered housing and the interior wall area next to the sheltered housing in the Kangaroo and Wallaby enclosure building housing five Kangaroos and five Wallaby's. In addition, cobwebs and dust were observed accumulating on the fencing in one enclosure housing one Chocoan Cavy. This indicates a living area exists for insects. Potential unsanitary living conditions and health issues exist if the affected areas are not kept clean. The licensee must ensure a safe and effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained. Correct by 10/12/23.

This inspection and exit interview were conducted with the licensee.
