KyTy Critters
6545 Scenic Drive
KANSAS CITY, MO 64133

Customer ID: **507265**
Certificate: **43-A-6470**
Site: 001
KYTY COMPANY LLC

Type: ROUTINE INSPECTION
Date: 13-OCT-2022

3.125(d)

Facilities, general.

* An accumulation of fecal waste was observed covering the floor area in four different enclosures. Two degus and six chinchillas are in contact with the affected enclosure flooring located in indoor housing. Fecal waste can become a disease hazard or area of contamination to the animals. In addition, waste odors can have an adverse effect on the health and well-being of the animals. Provision shall be made by the licensee for the removal and disposal of animal and food wastes, bedding, dead animals, trash, and debris. Correct by 10/20/22.

* The solid flooring in one stack cage unit does not cover the entire enclosure flooring. There is an estimated six-inch area of missing flooring that could allow animal waste, urine, floor shavings or spilled food to fall into the enclosure below. Two Chinchillas are in contact with the affected enclosure missing flooring which is located in indoor housing. Unsanitary conditions exist that can affect the health and well-being of the animals. The potential disease or health risks exist when anything from one enclosure falls into another enclosure. The licensee must provide for the regular and frequent collection, removal, and disposal of animal and food wastes in a manner that minimizes contamination and disease risks. Correct by 10/20/22

This inspection and exit interview were conducted with the licensee.
