Certificate: **42-C-0202**
Site: 002
Pella Wildlife Company

Type: ROUTINE INSPECTION
Date: 20-FEB-2015

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The facility does not have a recorded site visit by the attending veterinarian. Good communication and consultation between the licensee and the attending veterinarian in the form of a written program of veterinary care and regularly scheduled visits to the premise are necessary for the health of the animals. The licensee must schedule a site visit with the attending veterinarian.

The written program of veterinary care does not have information pertaining to the ferrets present at the facility. Failure to have a complete written program of veterinary care does not ensure that the animals are receiving veterinary care consistent with currently accepted veterinary practices. It shall include product dosage, route of administration, concentration of active ingredient, the frequency of use, testing to be completed and the frequency in which testing shall be done. The program of veterinary care must be updated to ensure that all animals are provided adequate veterinary care at all times.

No regulated activity can be conducted from this site until it has been approved.

Exit interview conducted with licensee.
