Contingency planning.

There was no Contingency Plan developed or documented by the Applicant at the time of the inspection.

Per this Section, exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession). The contingency plan requirement ensures that the animals receive proper care during emergency situations.

This is a 1st Re-license Inspection for a Class "C" license. The inspection and exit briefing were conducted with the Applicant.

All items must be in compliance within 2 more inspection(s) or by 9/10/23 (60 days) or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Relicense Inspection.

Regulated activity can continue under your existing USDA license until it expires on 8/14/23.
