5065 State Road 50
DeLavan, WI 53115

Customer ID: 7752

Certificate: 35-C-0189

Site: 001

DeLavan Lake Animal Park

Type: ROUTINE INSPECTION

Date: 11-JUL-2024

2.75(b)(1)

Records: Dealers and exhibitors.

Complete and up to date acquisition/disposition information was unavailable at the time of inspection for some animals at the facility for pygmy goats acquired this year, a skunk that passed away sometime possibly this spring, and three chickens. Records of acquisition and disposition can be important in animal health tracking. Records must correctly disclose the following information concerning animals other than dogs and cats, purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by that dealer or exhibitor. The records shall include any offspring born or hatched of any animal while in his or her possession or under his or her control, to the extent that any identification or counting of offspring can be carried out without unduly disturbing nesting or rearing activities.

Ensure to maintain acquisition and disposition records up to date.

***Correct by 7/19/2024.

3.125(a)

Repeat

Facilities, general.

On the south area of the pygmy goat area three screws were sticking out where the older goats and llama could possibly contact them. Screw points could possibly injure animals. Ensure that this area is repaired and that surfaces are free from sharp points.

3.127(d)

Facilities, outdoor.

One of the southeast posts for the perimeter around the wolves is broken by the ground and leans toward the wolf enclosure. If left in disrepair, it could allow the public to get too close to the wolves and also might not serve as a secondary containment for the wolves. Ensure that this post is repaired/replaced so that the perimeter fence is structurally sound and maintain the perimeter fence in good repair.

***Correct by 7/18/2024.

3.154

Environment enhancement to promote psychological well-being.

Inspection Report

The facility provides opportunity for enrichment and socially houses their birds, however a written program of environmental enhancement to promote psychological well-being of birds has not been completed. A plan for environmental enhancement for birds that is developed with and approved by the attending veterinarian (AV) is required and helps ensure birds are provided with adequate enrichment and social housing. Ensure to work with the AV to maintain an approved written plan for environmental enhancement for the birds at the facility.

***Correct by August 9, 2024.

This inspection and exit interview were conducted with facility representatives.
