Type: ROUTINE INSPECTION
Date: 24-JAN-2024

3.84(a)

Cleaning, sanitization, housekeeping, and pest control.

The marmoset enclosure in the living room housing one common marmoset is in need of cleaning. The food bowl holder is soiled with old food. Daily spot cleaning of all hard surfaces is necessary to prevent an excessive accumulation of excreta and food wastes, to prevent the animals from becoming soiled and to reduce disease hazards, insects, pests and odors.

The marmoset enclosure including the shelves and trays need to be spot cleaned daily and the area underneath the enclosure as often as necessary.

Correct by January 28, 2024

This inspection and exit interview were conducted with a facility representative.
