### 2.126(a)(2)

#### Access and inspection of records and property; submission of itineraries.

\*\*At the time of the inspection conducted on 05/24/23, the licensee was unable to locate the current written Program of Veterinary Care. The written Program of Veterinary Care available at the time of the inspection had last been reviewed by the attending veterinarian in December 2021. The written Program of Veterinary Care indicated the review would be conducted every 6 months. A current written Program of Veterinary Care should be reviewed by the attending veterinarian on a regular basis to ensure the health and well being of the animals housed at that facility. The written Program of Veterinary Care is required whenever a part-time veterinarian is employed by a facility as per Section 2.40 (a) (1).

Documents that are required to be maintained by a facility per the AWA Regulations should be available for review at the time of inspection in order to determine compliance with the Animal Welfare Act.

Correct by: June 2, 2023
