Type: ATTEMPTED INSPECTION

Date: 09-JUN-2023

2.126(b)

Access and inspection of records and property; submission of itineraries.

A responsible adult was not available to accompany APHIS Officials during the inspection process at 1:20pm on June 9, 2023. The Inspector knocked on the door of the Ranger Station and then called the Ranger phone number. An employee called me back stating the park ranger was not on property. The inspector waited an hour in total and no authorized representative became available.

The licensee failed to have a responsible person available to conduct an animal welfare inspection. The facility was not able to be inspected for compliance with the Animal Welfare Act regulations and standards to ensure the health and well-being of the animals. A responsible person must be available to accompany the inspector on an animal welfare inspection.
