Bucca Farms
15217 Fortner Dr E
Loxahatchee, FL 33470

Customer ID: **6020483**
Certificate: **58-A-0391**
Site: 001
Bucca Farms

Type: ROUTINE INSPECTION
Date: 30-JUN-2025

3.150(c)(2)

Facilities, general.

Two outdoor enclosures housing two cockatoos and two hyacinth macaws contained excessive rust on the bottom wire panels. In addition, multiple areas of rust were observed along the corners of the metal sheet barriers affixed to the sides of several outdoor enclosures housing African greys and white-bellied caiques. Some areas are actively flaking and contain jagged edges. These rusted areas prevent appropriate cleaning and sanitization and may compromise structural integrity. These jagged surfaces also pose a risk of injury to the birds. A more effective plan is needed to repair and maintain the enclosures in good repair. The facility shall ensure that any surfaces that the birds can encounter are free of excessive rust or damage. Correct by July 29,2025.

3.153(a)(1)(i)

Primary enclosures.

The wooden shelter inside the outdoor enclosure housing 2 hyacinth macaws had a large area in the upper right corner that was excessively chewed and splintered. The damaged wood presents a risk of injury as the birds move throughout the shelter. The primary enclosures must be constructed and maintained so that they have no sharp points or edges that could injure the birds. Correct by July 15,2025.

This inspection and exit interview were conducted with the licensee.
