Records: Carriers and intermediate handlers.

From March 12, 2025, to March 14, 2025, the registrant transported an 8-week-old American Bully puppy from Oklahoma to Pennsylvania without keeping or maintaining a health certificate. Health certificates are important for ensuring that animals are healthy, fit for travel and appear free of any infectious disease or physical abnormality that would be a danger to themselves, other animals, and the public.

Correct by ensuring that any dog or puppy delivered for transportation in commerce is accompanied by a health certificate issued by a licensed veterinarian, dated not more than 10 days prior to transportation and maintaining a copy of all health certificates for a minimum of one year for all dogs, cats, or nonhuman primates transported.

Correct by: June 26, 2025, forward.

This inspection and exit interview were conducted with facility representative.
