ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The kennel facility consists of a outdoor housing area and a indoor whelping room. In the outdoor area there were four animals which need to be evaluated by the attending veterinarian. There is a two year old French Bulldog, chip # 0A01583540, which has hair loss across both sides of her torso and flanks. One three year old English Bulldog named Glorie, chip# 0A01585440, has a 1cm x 1cm mass on the white of her left eye. A one year old female English Bulldog has an enlarged gland on her left eye. A one year old brindle male English Bulldog, chip # 0A01736826, has an enlarge gland on his right eye. The dealer did not have any documenttion of the animals be previously evaluated or receiving any form of treatment. The animals must be evaluated by the attending veterinarian to protect their health and welfare. The dealer must maintain written documentation of the evaluation and all treatment

Affect four adults.

Correct by May 13, 2014

3.6(a)(1)

PRIMARY ENCLOSURES.

In the outdoor portion of the kennel there is a long set of adjoining primary enclosures constructed from chain link fence material and metal support post. On one enclosures there is a metal post that is bent and has jagged rusty edges. The post needs to be repaired or replaced to protect the contained animals from injury, to contain them securely and to protect their health and welfare.

Affects one adult

Correct by May 14, 2014

The inspection and exit interview was conducted with the facility representative.
