2.40(b)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The Program of Veterinary Care (PVC) has a most recent signature dated 2010. The Attending Veterinarian needs to regularly review the PVC to ensure that it is still pertinent.

A current PVC ensures that important aspects of husbandry and health care for the animals have been considered. Correct by January 2, 2015.

2.75(b)(1) REPEAT

RECORDS: DEALERS AND EXHIBITORS.

The records of animals on hand are incomplete. There is no information as to the source of the animals on most of the entries.

Accurate records are a requirement of licensure.

Correct by January 2, 2015.

3.127

FACILITIES, OUTDOOR.

The cattle (2) have no shelter in their enclosure. Another enclosure containing different species of animals has inadequate shelter space for the number of animals contained in the enclosure.

The animals must have shelter from inclement weather and sunlight that will accomodate all the animals at the same time. One must consider size of animals as well as individual compatibilities when determining whether the amount of space is adequate.

Correct by January 2, 2015.

The inspection and exit briefing were conducted with the animal caretaker.
