

Inspection Report

Derek Evans
2521 North R St
Pensacola, FL 32505

Customer ID: **328502**
Certificate: **58-B-0599**
Site: 001
DEREK EVANS

Type: ROUTINE INSPECTION
Date: 31-AUG-2016

3.125(c)

FACILITIES, GENERAL.

In the back room of the back building there was bedding and feed bags that were not adequately contained to prevent contamination. Supplies of food and bedding shall be stored in facilities which adequately protect such supplies against deterioration, molding, or contamination by vermin. Correct by September 7, 2016

3.126(b)

FACILITIES, INDOOR.

When walking into the back building there was a strong ammonia-like smell that required the door to stay open in order to inspect. Indoor housing facilities shall be adequately ventilated by natural or mechanical means to provide for the health and to prevent discomfort of the animals at all times. Such facilities shall be provided with fresh air either by means of windows, doors, vents, fans, or air-conditioning and shall be ventilated so as to minimize odors. Correct by September 14, 2016.

3.131(a)

SANITATION.

The skunks enclosure located in the back room of the back building had an excessive amount of feces and had not been cleaned. Excreta shall be removed from primary enclosures as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors. Correct by September 3, 2016

3.131(c)

SANITATION.

In the back building in the back room where the skunks enclosure was being kept there was clutter around the enclosure. The building shall be kept clean in order to protect the animals from injury. Correct by September 7, 2016

This inspection and exit interview were conducted with owner.
