

Inspection Report

Capital of Texas Zoo L L C
376 A Jenkins Rd.
CEDAR CREEK, TX 78612

Customer ID: **332212**
Certificate: **74-C-1010**
Site: 001
Capital of Texas Zoo L L C

Type: ROUTINE INSPECTION
Date: 10-AUG-2023

2.75(b)(1) Repeat

Records: Dealers and exhibitors.

The animal inventory and acquisition /disposition records could not be located by the licensee at time of the inspection. Dealers and exhibitors shall maintain records or forms that include information about animals in their possession including offspring born. Records shall include information about animal acquisition and disposition. The dealer and or exhibitor shall maintain a copy of these records.

3.84(d)

Cleaning, sanitization, housekeeping, and pest control.

At time of the inspection, numerous flies were observed swarming on turtle food that had been left in the enclosure housing the pair of ringtail Lemurs with the infant. Flies are also an issue in the enclosure housing 2 brown lemurs as they were swarming on the ground around the food container of primate biscuits. Flies may spread disease and cause discomfort to the animals. There is no pest control program in place around these animal enclosures. A safe and effective pest control program shall be established and maintained to promote the health and well-being of the animals and reduce contamination by pest in animal areas.
To be corrected by 8/17/2023.

3.125(a) Repeat

Facilities, general.

There are numerous sharp points that are protruding from the hot wire on the side of the hippo enclosure. There is a mass of tangled hot wire located next to the gate at the hippo shelter. The sharp points and the tangled wire are areas that may cause injury to the hippo. Sharp point and tangled wire must be repaired or removed to provide a safe enclosure that protects the hippo from injury.

3.131(c) Repeat

Sanitation.

There are discarded items (paint cans, old tools, tarps and shade cloth) around several animal exhibits including the male serval and hippo enclosures. Trash is littering the area around the dry food storage container. Discarded materials, empty food containers and other trash serve as an attractant and breeding area for pests such as rodents, snakes and flies
