Site: 001
SAMUEL BRUBACKER

Type: ROUTINE INSPECTION
Date: 14-DEC-2015

3.11(c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

*** The whelping room needs to be addressed. There are several enclosures that are empty but still have feeders with food in them and the box needs to be cleaned. These feeders with food had evidence of mice feces and empty enclosures with food promote breeding and living areas for pests.

*** Some of the walls of the whelping boxes with dogs have a layer of grime that needs to be wiped down and additionally some of the feeders need to be cleaned more frequently. These areas need to be kept clean to promote good housekeeping practices.

*** The main kennel building needs to have the area underneath the wood enclosures cleaned out. There is an accumulation of miscellaneous tools and items that need to be removed to keep the area in good repair and reduce living areas for pests.

Correct by: Dec 19, 2015

An exit briefing was conducted with a facility representative at the time of the inspection.
