SAVE THEM ALL, LIFESAVERS  
RESCUE TRANSPORT

Type: ROUTINE INSPECTION

Date: 03-AUG-2021

---

### 3.14(c)

#### Consignments to carriers and intermediate handlers.

Upon inspection, the carrier had not obtained certification statements with the required information for the dogs and cats transported. Receipt of feeding and watering instructions for each animal received is imperative, as well as confirmation that food and potable water were offered within four hours prior to transport. Doing so addresses the animals' needs during transit, as well as aids in their comfort and wellbeing.

Carriers and intermediate handlers must not accept a dog or cat for transport unless the consignor certifies in writing to the carrier or intermediate handler that the dog or cat was offered food and water within four hours preceeding delivery to the carrier or intermediate handler. Instructions provided must be in compliance with 3.17 and provide the required information for each dog and cat.

To be corrected by August 6, 2021.

### 3.18(a)

#### Critical

#### Care in transit.

On June 5, 2021, two puppies passed away while in transport. During a route heading north from Louisiana to Rhode Island, two of the puppies began to decline. Once identified, the puppies were provided with additional supportive care by

## Inspection Report

---

the operators of the carrier, while traveling to the final stop. The carrier stated their plan was to get the animals out of transit as soon as possible, in hopes the puppies would recover better when they were no longer in transit. Although the carrier attempted to provide extra care and comfort, veterinary care was not obtained when signs of distress were first observed.

Failure to appropriately seek veterinary care can lead to a decline in health, pain, or exacerbation of other problems for the affected animals. The regulated person must ensure that the operator or person accompanying the operator determines whether any of the dogs or cats are in obvious physical distress, and obtains any veterinary care needed for the dogs or cats at the closest available veterinary facility.

To be corrected by August 3, 2021.

This inspection and exit interview were conducted with the licensee and facility representative.
