OUTDOOR HOUSING FACILITIES.

Outdoor facilities must protect dogs from direct sunlight. The outdoor housing enclosures, most of the tarps are missing allowing direct sunlight. All dogs in this area have no adequate shade. Even when temperatures are cooler, shade must be available. Shade must be added to all these enclosures to ensure dogs are properly cared for and comfortable. The breeder must put into place a good maintenance program that promptly addresses concerns that can affect the good health and well-being of dogs in outdoor facilities. Correct by 10-01-2017.

This inspection and exit briefing were conducted with the owner and Karl Thornton, ACI.
