HOUSING FACILITIES, GENERAL.

In the small dog indoor housing facility, two Yorkshire Terriers were entangled in the strings of a worn carpet square. The carpet square had unraveled and the strings were wrapped around the hind legs of one dog multiple times and also wrapped around the body of the other dog. The strings was loosely wrapped not causing any injuries.

Worn surfaces can cause injury. The licensee must ensure that all surfaces are maintained on a regular basis. Surfaces that cannot be readily cleaned and sanitized must be replaced when worn or soiled.

This inspection and exit interview were conducted with the licensee and ACI Bartels.
