Environment enhancement to promote psychological well-being.

An environment enhancement plan (EEP) has not been established to promote the psychological well-being of birds. Failure to establish and maintain an EEP can result in birds not receiving adequate enrichment which can lead to behavior, social, health, and other psychological problems. The plan must address at a minimum social grouping, environment enrichment, special considerations, restraint devices and any birds that are exempted by the attending veterinarian because of health issues or other conditions. The plan must be approved by the attending veterinarian. Licensee must establish and maintain an EEP for the birds. Correct by December 30, 2023.

This inspection and exit interview were conducted with the facility representative.
