HANDLING OF ANIMALS.

On April 8, 2014, a few students were playfully nipped by two, 3 month old lion cubs during a visit, which was part of their internship. No skin was broken and injury was minor. However, because individuals were harmed, the staff did not adequately handle the cubs while they were on display. Lion cubs, as well as any animals, must be handled so there is minimal risk of harm to the animal and to the public.

TO BE CORRECTED: HENCEFORTH

This focused inspection and exit briefing was conducted with the facility representative.
