Site: 001

BAY BEACH WILDLIFE  
SANCTUARY

Type: ROUTINE INSPECTION

Date: 13-NOV-2024

---

### 3.58(a)

#### Classification and separation.

An adult male eastern cottontail rabbit was observed during the inspection to be housed with southern flying squirrels. Although there has been a history of compatibility, the regulations state that rabbits shall not be housed in the same primary enclosure with any other species of animals unless required for scientific reasons. Ensure compliance by housing the cottontail rabbit alone or with other compatible rabbits within the same primary enclosure.

\*\*\* Correct by December 6th, 2024

This inspection and exit interview were conducted with the facility representatives.
