2.134(b)

Contingency planning.

No contingency plan, or annual review and training documentation on the plan, was available at the time of the inspection.

Written contingency plans identify tasks and personnel responsible in the event of emergencies that may adversely impact animal welfare, and must be reviewed and trained upon annually to ensure that personnel are ready to respond to an emergency. The facility must ensure that a written emergency plan is in place, and personnel are trained on it, and that it is reviewed annually.

Correct by 23 April 2023.

This inspection and exit interview were conducted with the facility representative.
