ERNESTO LIBORIO FASSIO

Type: ROUTINE INSPECTION
Date: 09-DEC-2014

This inspection and exit interview conducted by APHIS, USDA, Animal Care Inspector and the designated person for inspection.

This was a routine inspection of the home facility as well as a focused inspection for the Repeat and the Direct noncompliances identified on the TRA inspection of 11/13/14.

A new attending veterinarian has been obtained for the facility. The owners were directed to take three dogs to a veterinarian, one within 48hrs and two within two weeks from the date of the 11/13/14 inspection.

The results of the visit to the veterinarian was a round of restricted exercise and medication for the Borzoi known as "Princess" which has since been followed by an examination by the new ATV with prescribed continued restricted exercise and a new medication and toe nail trimming which will be followed with a re-examination upon completion of the medication run.

An appointment for the other two dogs "Barzoi" a 6 year old male Borzoi and 'Apache" a 3 year old male Border Collie following the initial examination by the new ATV is being scheduled to address the tartar and broken teeth issues.

The transportation area concerns have been addressed and access to the upper ledge has been modified to allow access only when stopped by putting a barrier from wall to wall which can be removed when not in transit.

There were no noncompliances identified during this inspection of the home facility.

END OF REPORT.
