SOUTH TEXAS ZOOLOGICAL
SOCIETY

Type: ROUTINE INSPECTION

Date: 06-FEB-2024

3.81(c)(4)

Environment enhancement to promote psychological well-being.

One geriatric male red ruffed Lemur is housed alone in an enclosure . He does have auditory but no visual contact with a tamarin in the next enclosure . The present plan for environmental enhancement does not give details about meeting the needs of individually housed non human primates that are unable to see and hear nonhuman primates of their own or compatible species. The facility states that there is a new attending veterinarian but he has not yet reviewed the plan. The plan must address these special considerations and be in accordance with the instructions of the attending veterinarian .
CORRECT BY : 3/7/2024

3.125(a)

Repeat

Facilities, general.

The green gate at the entrance to the former petting zoo barn is leaning. There is a gap between the gate and the support post large enough to trap an animals head . The gate must be repaired and the enclosure maintained in good repair to prevent injury to the animals.
CORRECT BY : 2/15/24

3.154

Environment enhancement to promote psychological well-being.

Although birds at this facility are provided enrichment , the faicity has not yet developed a plan for environmental enhancement for birds that is approved by the attending veterinarian . The plan must address social needs. environmental enrichment . special considerations and restraint devices if needed.
CORRECT BY : 3/7/2024

This inspection and exit briefing were conducted with zoo employees .
