Type: ROUTINE INSPECTION
Date: 23-SEP-2024

2.134(b)

Contingency planning.

The Contingency Plan has not been reviewed by the licensee on at least an annual basis. The last review of the Contingency Plan was completed on 7/1/23.

Per this Section, all exhibitors must review their Contingency Plan on at least an annual basis to ensure that it adequately addresses potential emergency situations that could be detrimental to the health and well-being of the animals. The Licensee needs to review the Contingency Plan and document the review. Correct by 10/25/24.

3.154

Environment enhancement to promote psychological well-being.

Although the birds at the facility were socially housed when appropriate for the species of bird, and were provided with materials to enhance their environment, a written plan for environmental enhancement to promote the psychological well-being of the birds has not been completed. The Plan is still under development by the Attending Veterinarian and facility personnel.

Per this Section, exhibitors must develop, document, and follow a species-appropriate plan for environment enhancement to promote the psychological well-being of birds. The plan must be approved by the Attending Veterinarian and must be in accordance with currently accepted professional standards as cited in appropriate professional journals or reference guides. At a minimum, the plan must address each of the following: social grouping, environmental enrichment, special considerations, restraint devices, and exemptions. The Licensee needs to complete the development of an environmental enrichment plan appropriate for the species of birds maintained and the plan must be approved by the Attending Veterinarian. Correct by 10/25/24.

This inspection and exit briefing were conducted with facility representatives.
