VALLEY EXOTICS L L C

Type: ROUTINE INSPECTION

Date: 10-MAY-2016

3.127(d)

FACILITIES, OUTDOOR.

Currently, there are several areas missing in the perimeter fencing surrounding multiple non-dangerous exotic animals housed outdoors. The licensee is doing construction on the premises and has taken down some of the perimeter fence. A perimeter fence is required to keep unwanted animals and people from entering the facility and making contact with the animals. The perimeter fence also acts as a secondary containment system. The licensee must ensure that all covered exotic species housed outdoors are within an appropriate primary enclosure that is located inside a perimeter fence. Correct by 7/10/2016.

The inspection and exit interview were conducted with the licensee.
