### 3.13(b)(3)

#### Veterinary care for dogs.

There were no records listing the date(s) the adult dogs received their last distemper and parvovirus vaccines. There were no records listing when the adult dogs were last dewormed. Licensee stated that the adult dogs are vaccinated yearly with a 5-way vaccine and dewormed regularly. Failure to record the dates and names of all treatments makes it difficult to assess whether the written program of veterinary care is being followed as prescribed by the attending veterinarian and that the adult dogs are receiving preventative care to prevent health risks. Correct by maintaining records and dates of all vaccines and deworming treatments that are administered to the adult dogs.

This is a 1st re-license inspection for a Class A license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by May 26, 2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next re-license inspection.

Regulated activity can continue under your existing USDA license until it expires.
