SCANTIBODIES LABORATORIES,
INC.

Type: FOCUSED INSPECTION

Date: 29-JUL-2024

2.31(c)(1)

Institutional Animal Care and Use Committee (IACUC).

The facility's 2023 IACUC meeting history is as follows: An IACUC meeting was held on January 16, 2023, and the next IACUC meeting was not until November 16, 2023, which is an extended interval of 10 months. There has not been an IACUC meeting for 2024 which is over 9 months as discovered on the day of the inspection.

It is a primary function of the IACUC, with respect to activities involving animals, that the IACUC, as an agent of the research facility, shall review, at least once every six months, the research facility's program for humane care and use of animals, using title 9, chapter I, subchapter A--Animal Welfare, as a basis for evaluation.

Correct by August 31, 2024.

2.31(c)(2)

Institutional Animal Care and Use Committee (IACUC).

The facility had a semiannual animal facility inspection in January 2023 and then had a delayed interval of approximately 10 months before the next inspection in November 2023. There has not been a semiannual animal facility inspection performed by members of the IACUC for 2024 which is an extended delay of over 9 months as discovered on the day of USDA's Animal Care inspection.

The IACUC shall inspect, at least once every six months, all of the research facility's animal facilities, including animal study areas, using title 9, chapter I, subchapter A-Animal Welfare, as a basis for evaluation.

Correct by August 31, 2024

2.31(c)(3)

Institutional Animal Care and Use Committee (IACUC).

The facility has not had a semiannual IACUC meeting or animal facility inspection by the IACUC for 2024. Therefore, no reports approved by a majority of IACUC members concerning these activities that should have occurred have been

Inspection Report

reported to the Institutional Official semiannually for 2024. Integral IACUC functions are necessary to ensure that facility animals are being provided with their proper health and welfare requirements and that the protocols are being adhered to as written.

It is an integral IACUC function to prepare reports of its evaluations conducted as required by paragraphs (c)(1) and (2) of this section, and submit the reports to the Institutional Official of the research facility; Provided, however, That the IACUC may determine the best means of conducting evaluations of the research facility's programs and facilities; and Provided, further, That no Committee member wishing to participate in any evaluation conducted under this subpart may be excluded. The IACUC may use subcommittees composed of at least two Committee members and may invite ad hoc consultants to assist in conducting the evaluations, however, the IACUC remains responsible for the evaluations and reports as required by the Act and regulations. The reports shall be reviewed and signed by a majority of the IACUC members and must include any minority views. The reports shall be updated at least once every six months upon completion of the required semiannual evaluations and shall be maintained by the research facility and made available to APHIS and to officials of funding Federal agencies for inspection and copying upon request. The reports must contain a description of the nature and extent of the research facility's adherence to this subchapter, must identify specifically any departures from the provisions of title 9, chapter I, subchapter A--Animal Welfare, and must state the reasons for each departure. The reports must distinguish significant deficiencies from minor deficiencies. A significant deficiency is one which, with reference to Subchapter A, and, in the judgment of the IACUC and the Institutional Official, is or may be a threat to the health or safety of the animals. If program or facility deficiencies are noted, the reports must contain a reasonable and specific plan and schedule with dates for correcting each deficiency. Any failure to adhere to the plan and schedule that results in a significant deficiency remaining uncorrected shall be reported in writing within 15 business days by the IACUC, through the Institutional Official, to APHIS and any Federal agency funding that activity.

Correct by August 31, 2024.

This inspection and exit interview were conducted with facility representatives.
