Certificate: **86-C-0076**
Site: 002

Keepers of the Wild, Inc.

Type: RE-LICENSE INSPECTION
Date: 20-SEP-2022

3.127(d)

Facilities, outdoor.

A majority of the outdoor housing facilities are not enclosed by a perimeter fence which is required for the animal species housed at this facility. Outdoor housing facilities must be enclosed by a perimeter fence that is of sufficient height to keep animals and unauthorized persons out. A perimeter fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility. Fences less than 8 feet high for potentially dangerous animals or less than 6 feet high for other animals must be approved in writing by the Administrator. Additionally, the fence must be at least 3 feet in distance from the primary enclosure or must be approved in writing by the Administrator.

The facility must construct a perimeter fence of appropriate height and distance from the primary enclosures or must obtain approval by the Administrator.

The facility is currently in the process of applying for a perimeter fence variance.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.
