

Inspection Report

Tennessee Department of Environment and Conservation
500 James Robertson Pkwy 8th Floor
Nashville, TN 37243

Customer ID: **6020556**
Certificate: **63-C-0314**
Site: 021
Reelfoot Lake State Park

Type: ROUTINE INSPECTION
Date: 10-SEP-2024

3.153(a)(2)

Primary enclosures.

The perches in the barred owl and barn owl enclosures are in need of repair. The wooden branch perches are covered with rope or artificial turf. The rope in both owl enclosures has come loose and partially unwrapped. The loose rope and plastic zip tie rings that held the rope could become harmful to the birds. The artificial turf of the barred owl enclosure perch that the three birds typically sit on has a loose section that a bird's talons could get caught in-between the turf material and the perch itself.

Objects such as perches that enrich a bird's environment must be designed, constructed and maintained so as to prevent harm to the bird. Correct by 9/17/24.

This inspection and exit interview were conducted with the facility representative.
