CAROLINA TOWN AND AMAZING
ANIMALS

Type: ROUTINE INSPECTION

Date: 07-APR-2021

2.40(b)(3)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

-Daily observations of all regulated animals could not be verified on inspection of the facility. Failure to observe each animal daily can lead to prolonged pain or distress in the animals.

-Two guinea pigs are receiving topical treatment for ringworm as recommended by an employee of the facility. Per the licensee, the AV has not been contacted regarding appropriate evaluation and potential treatment for these animals. Failure to communicate medical concerns to the AV can result in misdiagnosis and improper treatment of animals.

Daily observations of all animals to assess their health and well-being is a required component of the Program of Veterinary Care required for this facility. In addition, a mechanism of direct and frequent communications is required, so that timely and accurate information on problems of animal health, behavior, and well-being is conveyed to the AV.

Correct by April 9, 2021.

This inspection and exit interview were conducted with the licensee.
