CONSERVATION
AMBASSADORS, INC.

Type: ROUTINE INSPECTION
Date: 17-SEP-2024

3.153(a)(1)(i)

Primary enclosures.

Sharp points and edges were found in one enclosure containing 1 Bald eagle and another enclosure containing 2 screech owls. In each of the enclosures, the sharp edges of sheet metal roofing material extended into areas accessible to the birds. All of the birds were free in their enclosure with access to the edges. The primary enclosure must be constructed and maintained with no sharp points or edges that could potentially injure the birds. Both enclosures were corrected prior to completion of the inspection.

This inspection and exit interview were conducted with Facility Representative.

Additional Inspectors:

William Campbell, VETERINARY MEDICAL OFFICER
